

October 16, 2007

Dear Andrew:

I want to thank you for all the hard work you put in over the last 3 years to assist Hoya with implementation of the Sprint MPLS Network across over 15 locations. The Sprint network works flawlessly and though Installation and Implementation can be a challenge, you were there to support us all the way.

I have turned over all my Voice and Data needs to you and Sprint now that you have shown us how you manage things. I would recommend ATEL and Andrew Cohen to anyone I know who needs a Data or MPLS Network.

Regards,

Kraig Black
